

## Learning Project Week 3 'Water'

Age Range Year 3

### Weekly Maths Tasks – aim to do one per day

Try to do 10 minutes of arithmetic/ mental maths each day:

- <https://www.topmarks.co.uk/maths-games/daily10>  
(Choose level 3 partitioning and digit values)
- <https://www.timestables.com/rally.html> (a range of times tables games to test and challenge you!)
- Year 3 skills check: (answers published next week) *Reproduced with kind permission from [mathsbox.org](http://mathsbox.org)*

**Week 3**

- 1 Work out  $\frac{3}{10} - \frac{1}{10} =$
- 2 Work out  $85 + 268$
- 3 Find the missing number  $650 - ??? = 384$
- 4 Work out  $56 \times 8$
- 5 Work out  $92 \div 4$
- 6 Arrange the digits 1,5 and 4 to make the number closest to 500
- 7 Work out  $222 \text{ m} - 157 \text{ m}$
- 8 Find the missing number  $..... \times 8 = 72$
- 9 Draw a pair of vertical lines
- 10 How many seconds are there in 2 minutes?

Answers from last week: 1.  $\frac{1}{5}$ , 2. 425, 3. 197, 4. 204, 5. 32, 6. 582, 7. 180m, 8. 7, 9. \_\_\_\_ \_\_\_\_ 10. 366

- White Rose Maths has daily maths lessons for you to work through:

<https://whiterosemaths.com/homelearning/year-3/>

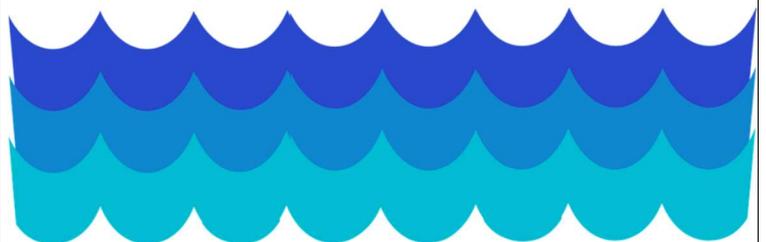

Watch the video, pausing to do the activities when you are told. The BBC are providing **free** worksheets to support the White Rose Maths lessons. Access these [here](#).

From May 4<sup>th</sup>, White Rose Maths are charging for their worksheets – your school may provide you with a code to access these – the BBC sheets are completely compatible with White Rose.

### Weekly Reading Tasks – aim to do one per day

Try to read every day. There are some ideas here:

- This book is all about Water:  
[https://readon.myon.co.uk/reader/index.html?a=as\\_water\\_f02](https://readon.myon.co.uk/reader/index.html?a=as_water_f02)
  1. Read it and find 5 new facts you have learned.
  2. Write down the subheadings from each double page. Summarise the information given in each section.
  3. Write down all the verbs used to describe how water moves, e.g. trickles, crashes, etc. You could use these in your writing this week.
- Audible have made all their children's books free while schools are closed. Choose one and listen:  
<https://stories.audible.com/discovery>
- Read a book of your choice to an adult. Talk about the story and the characters. Predict what you think might happen next. Explain why you like/ do not like the book.
- Read the text about Water and answer the questions. Choose the level of text (1, 2 or 3 stars). Go to [www.twinkl.co.uk/offer](http://www.twinkl.co.uk/offer) and enter the code Parentstwinklhelps. Download the [Water text](#) and questions for free. Answers provided.

**Weekly Spelling, Punctuation & Grammar Tasks – aim to do one per day**

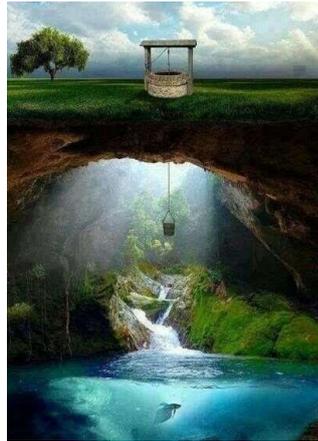

- Work through the [tasks](#) to learn how spell words with the “u” sound spelled “ou”.
- Practise using different types of causal conjunctions. Download [the PowerPoint](#) and follow the instructions to learn how to use causal conjunctions to explain how or why something happened. You will need these conjunctions in your writing this week.
- [Play and practise](#) words from the year 3 and 4 statutory spelling list.
- How many words can you make from the letters in: evaporation?

**Weekly Writing tasks – aim to do one per day**

Focus: Fiction

- Run your hand under the tap and feel the water flowing over your fingers. Describe what you can see, hear, feel, taste. Be as descriptive as possible, e.g. Gently, the whispering, crystal-clear water slips through my fingers and creates a perfect tiny ocean. Now find some ice: how does it compare? Write sentences to describe the ice.

- Look at this image: write a description of the picture. Use your senses to write in detail using adjectives, similes, adverbs. E.g. Silently, the magical turtle glides through the glistening water. As soft as angel-song, the waterfall trickles into the secret pool.

- Imagine you discovered this secret underground world under the well. Write a story about the day you fell down the well. What did you find down there? Describe how you felt when you were down there. How did you get out? Will you go back?
- Plan and write a story called “The Adventures of a Raindrop.” Imagine you are a droplet of water. Describe all the adventures you have in your life: swimming in the ocean, being heated up and floating up into the sky, forming clouds with lots of your friends, falling back to earth, flowing into a river and eventually back home to the ocean. Describe each part as if you are there! Watch [this video](#) again to remind yourself about what happens. Try to include causal conjunctions and some of the verbs you found in your reading tasks. You could illustrate your story or even turn it into a book! This task will probably take you more than one day.

**Learning Project to be done throughout the week**

- **Science:** Look at the “Experiments” section of the book: [https://readon.myon.co.uk/reader/index.html?a=as\\_water\\_f02](https://readon.myon.co.uk/reader/index.html?a=as_water_f02) Follow the instructions to complete each experiment. Can you explain what is happening in each experiment using words from the water cycle? What has happened to the water in the apple slice? Why does the condensation form on the glass? Why has frost formed on the plate? Draw diagrams to show what you did for each experiment and write sentences to explain what you think has happened.

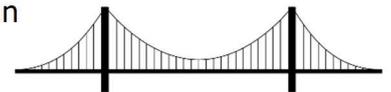

- **Art & Design:** Look closely at Monet's famous paintings of waterlilies. He painted several paintings of waterlilies in his career. This style of painting is called Impressionism and it changed the artworld at the time (late Victorian era). Click on the links on the image [here](#) to find out more about Impressionism and Monet's work.

This style of painting is called Impressionism and it changed the artworld at the time (late Victorian era). Click on the links on the image [here](#) to find out more about Impressionism and Monet's work.

Try to recreate the piece of work. There is a great tutorial [here](#). (Click on the black dot in the bottom left corner called *Paint Like Monet*). Don't worry if you don't have exactly the same materials as the artist on the clip – just use whatever paint and brushes you have and do your best.

- **Geography:** Read the water book again: [https://readon.myon.co.uk/reader/index.html?a=as\\_water\\_f02](https://readon.myon.co.uk/reader/index.html?a=as_water_f02) . Draw a diagram of the water cycle. If you need some help, watch [this](#). Make sure you use the vocabulary: evaporation, condensation, precipitation.
- **Design and Technology:** Watch this [video about bridges](#). Find examples on the internet or in books of examples of each type of bridge mentioned: beam, truss & suspension. Design and make a bridge at home. You could use sticks, pencils, rolled up pieces of paper or even spaghetti! Experiment with different designs to see which is strongest. See if you can make a bridge strong enough to hold a can of beans. Draw a picture of your finished design and take a photograph if you can. Annotate your design to show what you did to ensure it was strong.
- **French:** the weather: watch [the video](#) to introduce the weather phrases and repeat each phrase as you hear it. Then complete [this worksheet](#). Now try to join in with [this song](#). In French, tell an adult about what the weather is like every day.
- **RE:** Water is important to lots of different faiths. Find out about these sources of water and why they are important to different faiths: the River Ganges, the River Jordan, the well of Zamzam. CHALLENGE: try to find where they are in the world on a map.
- **PE:** Every day, Joe Wicks has a 30- minute workout at 9 am. Join in via YouTube.

### Family learning

- Design and build a shelter out of just newspaper and sticky tape. Make sure it is big enough to fit in everyone who lives with you. Think about what shapes you will need to construct to make it strong. CHALLENGE: can you make it waterproof? (You will need to add some other materials to help)
- **PSHCE:** Your child may have concerns about the current situation. Childline has lots of advice about how to discuss it with your child. <https://www.childline.org.uk/info-advice/your-feelings/anxiety-stress-panic/worries-about-the-world/coronavirus/>
