2. Legal framework.....	3
3. Roles and responsibilities.....	3
4. Investment principles.....	4
5. Procedures .....	4
7. Links with other policies .....	5
Appendix A: Investment authorisation form.....	6

## 1. Aims

1.1 This policy aims to ensure that:

- The academy trust's funds are used only in accordance with the law, articles of association, funding agreement and the Academy Trust Handbook
- The trust's funds are used in a way that commands broad public support
- Value for money (economy, efficiency and effectiveness) is achieved
- Trustees fulfil their duties and responsibilities as charitable trustees and company directors

## 2. Legal framework

2.1 The Academy Trust Handbook states that academy trusts are required to have an investment policy to:

- Manage and track their financial exposure
- Ensure value for money

2.2 This policy is based on the [Academy Trust Handbook](#) and [The Charity Commission](#) guidance (CC14 Charities and investment matters: a guide for trustees).

2.3 This policy also complies with DDAT funding agreement and articles of association.

## 3. Roles and responsibilities

### 3.1 Academy trustees

3.1.1 Academy trustees will ensure that investment risk is properly managed. When considering whether to make an investment, trustees will:

- Act within their powers to invest as set out in our articles of association
- Exercise caution in all investments, reducing risk and ensuring that the trust acts with the utmost integrity
- Take investment advice from a professional adviser, as appropriate
- Ensure that exposure to investment products is tightly controlled so security of funds takes precedence over revenue maximisation
- Ensure that all investment decisions are in the best interests of the trust and command broad public support

3.1.2 Trustees avoid any investment transactions that are novel, contentious or repercussive and would require prior approval from the Education and Skills Funding Agency (ESFA).

**Novel transactions** are those of which the academy trust has no experience, or are outside the range of normal business activity for the trust.

**Contentious transactions** are those which might give rise to criticism of the trust by parliament, the public, and the media.

**Repercussive transactions** are those likely to cause pressure on other trusts to take a similar approach and hence have wider financial implications.

### 3.2 Finance and Risk Committee

3.2.1 Academy trustees delegate responsibility for the trust's investments to the finance and resources committee.

3.2.2 The committee is responsible for:

- Controlling and tracking financial exposure
- Reviewing the trust's investments
- Reporting to trustees on investments

3.2.3 Reports on the performance of the investments will be provided termly to the Finance and Resources Committee.

### **3.3 The Chief Financial Officer (CFO)**

3.3.1 The chief financial officer (CFO) is responsible for producing cash flow forecasts and for making decisions on investments in conjunction with the CEO. The CFO also provides information, including information on the performance of investments, to the finance and risk committee and trustees, as appropriate.

3.3.2 Reporting any actions being taken or planned to bring reserves in line with the minimum and maximum limits.

3.3.3 Transferring investment funds to an interest-bearing deposit account, with the authorisation of the board of trustees.

3.3.4 The Trustees agree to up to 75% of the amount of uncommitted cash across the twelve month cashflow forecast being invested in short-term – maximum 3 months - investment accounts.

## **4. Investment principles**

4.1 Risk is managed through diversification of investments, ensuring that the security of funds takes precedence over revenue maximization: sufficient balances will be held across accounts, with the Trust's cash flow forecast informing how much is available for investment and for how long.

4.2 Funds will only be placed with banking institutions that are regulated by the Financial Conduct Authority and with good credit ratings.

4.3 The following aspects will be considered:

- objectives
- risk
- type of investment and term
- academy's financial position
- financial limit for type of investment
- spreading investments between providers to ensure savings are covered by the Financial Services Authority (FSA)
- security of access
- rate of return
- charges
- business interests of Trustees and Academy staff
- ethical, social and environmental considerations
- review including review of performance

## **5. Procedures**

5.1 The following people are authorised signatories of the trust's central account:

- Chief Executive Officer
- Chief Financial Officer

- 5.2 Before any funds are invested, the 2 authorised signatories will sign to indicate they agree to the investment. (An investment authorisation form can be found in Appendix B).
- 5.3 The following information will be recorded about investments:
- Investment Date
  - Amount and description of the investment
  - Maturity Date
  - Interest rates/expected return
- 5.4 The CFO will review interest rates and compare them with other investment opportunities annually.
- 5.5 Cash flow and central trust current account balances will be monitored regularly by the CFO to ensure immediate financial commitments can be met and that the central trust current account has adequate balances to meet forthcoming commitments
- 5.6 When there are funds surplus to immediate cash requirements in the central trust current account, these will be transferred to an account with a higher interest rate.
- 5.7 Investments will normally be for a fixed term that does not exceed 1 year, unless there is a clear rationale for longer-term investment that would benefit the trust.
- 5.8 Funds, and any interest earned on those funds, will be automatically reinvested unless money is required for immediate or anticipated expenditure or the school requests the funds back at the end of the twelve-month investment period when money will be repaid with an apportioned interest element. The apportionment will be based on the amount withdrawn from the scheme by the school as a proportion of the interest earned across the investment pot.

## **6. Monitoring and review**

- 6.1 The CFO monitors the implementation of this policy.
- 6.2 This policy will be reviewed and approved by the academy trustees every three years.
- 6.3 The next scheduled review of this policy will be in the Summer Term 2027.

## **7. Links with other policies**

- 7.1 This investment policy links with Finance Regulations policy and the Reserves Policy
