1. Aims

Derby Diocesan Academy Trust acknowledges that all Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils with disabilities

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Explain your school's principles and values that relate to equality and inclusion here.

The plan will be made available online on the Trust and its school's website, and paper copies are available upon request.

Our Trust and its schools are also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The Trust and its school's support any available partnerships to develop and implement the plan. Accessibility audits are carried out across the Trust and its schools. Links with the local authorities are in place to further support accessibility requirements and this is considered as part of the school condition allocation funding.

If you have any concerns relating to accessibility in the across the schools within the Trust, the complaints procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

In line with the Equality Act 2010 (Schedule 10), the school publishes and maintains an Accessibility Plan which sets out how we will:

- Increase access to the curriculum for pupils with disabilities
- Improve the physical environment of the school to increase access
- Improve the delivery of information to pupils with disabilities

The plan is reviewed at least every three years, and more frequently if circumstances require.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

3. Physical Environment

Insert information relating to your school

Example:

School comprises of two almost identical buildings. The Foundation Stage and Key Stage 1 are situated at the top half of the site and Key Stage 2 are situated at the bottom end of the site. The two buildings are split by a sloping playground which runs through the centre of the school site. Each building is single storey which provides access to wheelchair users. All access points are flat or ramped (Main Entrance) to ensure that entry to the school is accessible to wheelchair users.

All the classrooms, the staffroom and offices in each of the buildings lead off the main hall. The playground between the two buildings is sloped, thus making an upper and lower area where children play and engage in outdoor learning.

Doors within the main buildings are wide enough to enable access to wheelchair users.

The school has internal emergency signage and emergency lighting. All escape routes are clearly marked. There is a disabled toilet within each of the main school buildings, all with handrails and emergency pull cords.

The school does not have its own carpark. Offsite parking for staff and visitors is available close to the main entrances into school and nursery on the road. During school hours, parking is available outside of the main school entrance on Raven Street.

4. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

The information set out in the column of 'current good practice' are examples to guide your own analysis of your current practice. They are not a thorough representation of good practice – you will need to adapt it to suit your school's context.
